

Medical & Trauma Moulage Workshop for Simulated Mass Casualty Experiences

April 27th
8:00 am – 4:30 pm

WHO SHOULD ATTEND:

- Public Health Emergency Preparedness Volunteers
- Nurses
- First Responders
- Public Health & Safety Officers
- Anyone who works with the public

An Educational Workshop sponsored by
Bureau of Public Health Emergency
Preparedness, Education and Exercise

About the Presenter

Bobbie Jo Merica

Bio:

- ~ Author, Medical Moulage- How to Make your Simulations Come Alive; 2011;
- Moulage- Bridging the Gap in Simulation, 2009;
- Moulage Magic! Theatrical Tricks to bring Simulation to Life, 2007
- ~ Owner, Moulage Concepts
www.MoulageConcepts.com
- ~ Simulation Coordinator/Technologist
- ~ Simulation Consultant (Simulation Building Design, Program Construction, Nursing Implementation)
- ~ "Moulage-The Art of Injury Simulation" Certification, Biological/Chemical/Terrorism
- ~ TEEEX Homeland Security Training

Teaching/Facilitation

- Medical & Trauma Moulage for Simulated Clinical Experience; 2012
- Global Security & Engineering Solutions L-3 ACE Rail Radiological Drill; 2011
- Bureau of Public Health Emergency Preparedness, Statewide Exercise/Vigilant Guard Exercise, (MCE); Arizona 2011
- Gathering of Technicians (GOT) , UNLV
- Moulage-Bridging the Gap Asilomar
- Moulage-Creating a story Human Patient Simulation A Conference for Educators, RNCSC
- Advanced Moulage Intermediate Simulation Education Conference, RNCSC
- Mastering Moulage SUN, Bay Area Simulation collaborative
- Mastering Moulage RN-ASC Simulation Users Conference
- Moulage Magic: Theatrical Tricks to help suspend disbelief!
- Beginning/Intermediate Conference, RNCSC
- In the Kitchen with Bobbie Simulation Education Conference, RNCSC

Memberships/Affiliations

Simulation Technologies Specialist Advisory Board
Rural Northern California Simulation Collaborative (RN- ASC)
Northern California Simulation Advisory Board
Simulation Technician DACUM, Panel Member
Contributing Author at healthysimulations.com

Full Thickness Burn

The following interactive workshop is designed to enhance realism in emergency preparedness simulation exercises while providing best practice techniques that assist the learner in "Bridging the Gap" in simulated trainings. This intensive, hands-on 8 hour course will be presented in a multifarious approach including

- scenario staging and techniques
- accessory moulage options
- wound care, reuse and storage recommendations
- time and money saving alternatives

MOULAGE TECHNIQUES

Participants will:

- Learn to use make-up and household products to create common medical conditions and odors.
- Create soft tissue wounds and accessory moulage utilizing gels, latex, & waxes.
- Create life-like three-dimensional wounds that can be debrided and triaged for a realistic training experience.
- Create basic, intermediate, advanced and trauma wounds including, burns, lacerations, impaled objects and knife wounds.

EMERGENCY PREPAREDNESS KIT INCLUDED:

Basic Emergency Preparedness Kit for the moulage designer includes the essentials needed to create basic, intermediate and advanced trauma moulage designs. Latex, wax, makeup materials, and tools come packed in a sturdy carrying case for ease of use in the training field.
